

HAQAST Massachusetts 2024

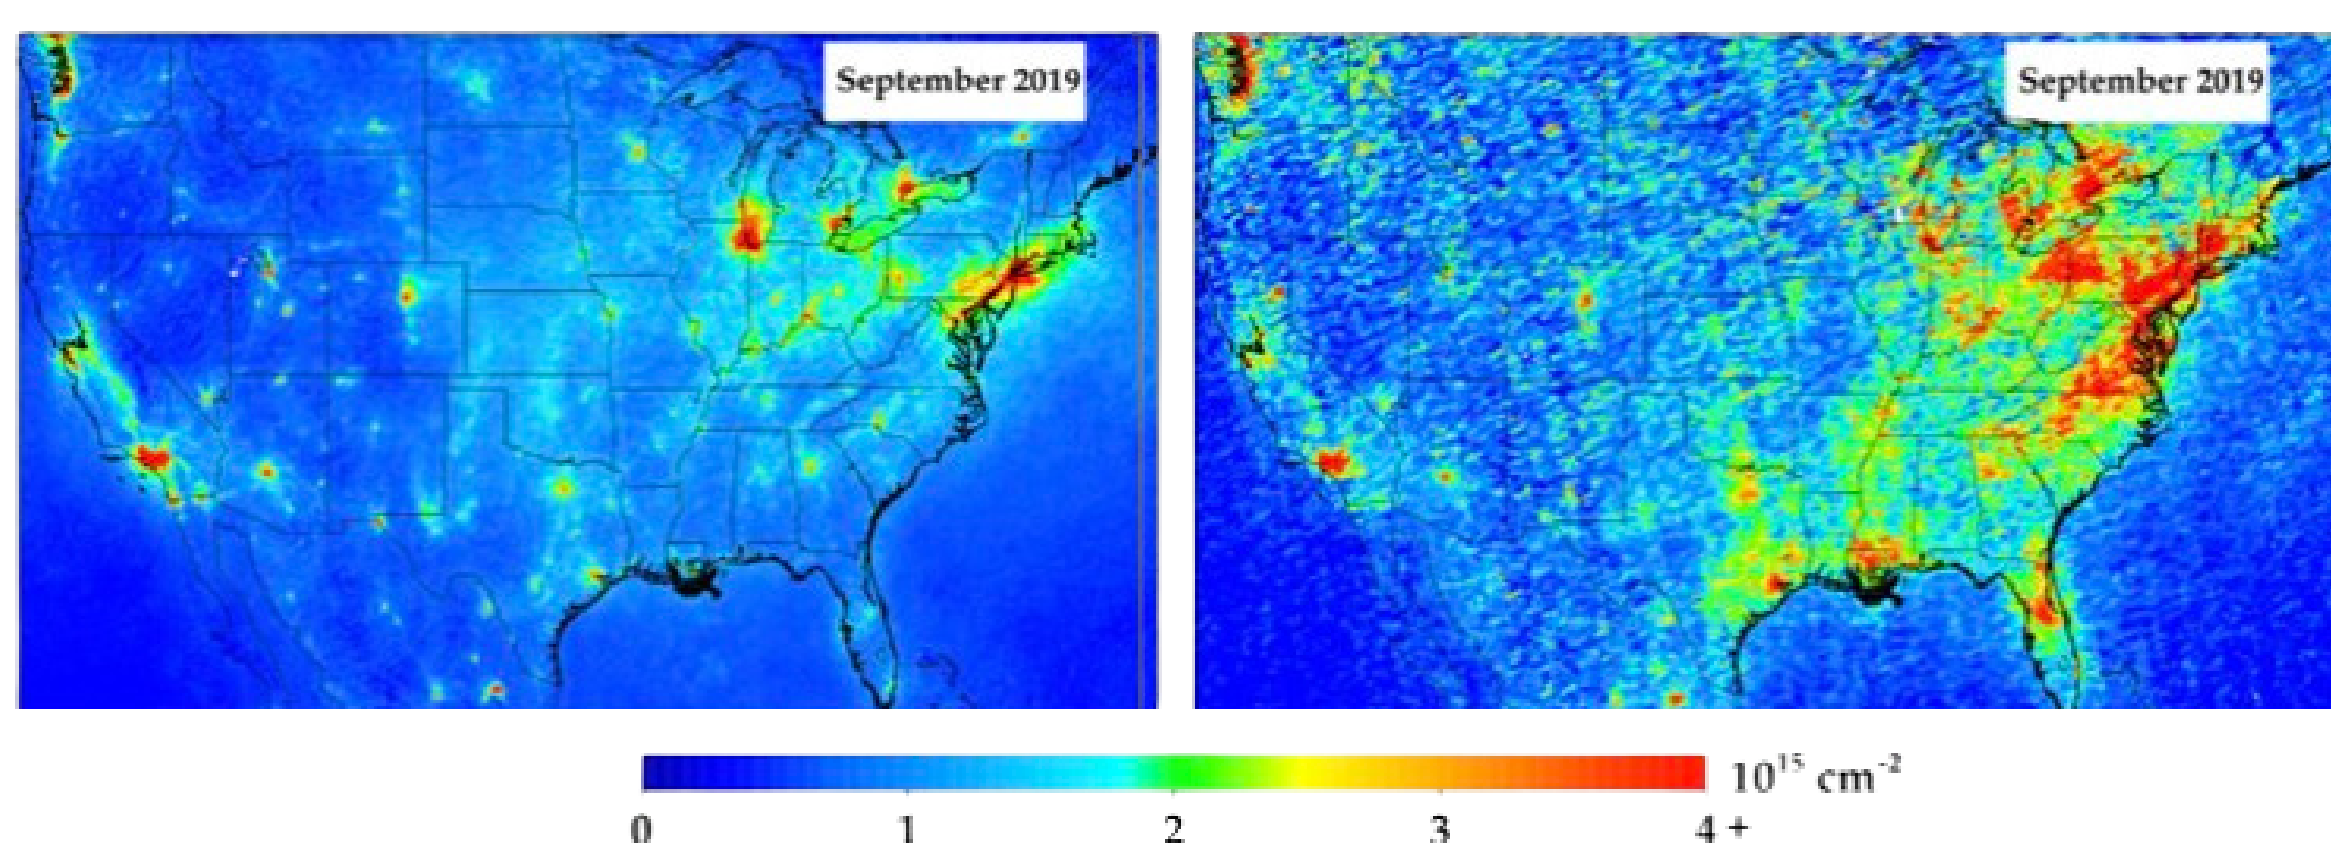

Largest Meeting to Date

- Largest HAQAST meeting to date, with 188 people in person and 205 online
- Meeting highlights: climate change adaptation and mitigation, applications from TEMPO, applications for satellite data in a changing regulatory landscape

20 Years of OMI and TROPOMI

- Meeting took place concurrently with OMI-TROPOMI Workshop at the National Center for Atmospheric Research to celebrate 20 years of data from the OMI instrument.
- HAQAST Member Bryan Duncan and HAQAST Collaborator Dan Goldberg each spoke about health applications of these data.

Column NO₂ as measured by OMI (left) and TROPOMI (right) satellites. Satellite images presented by Dan Goldberg.

HAQAST and Early Career Training

- Before the Massachusetts meeting, HAQAST held its first early-career workshop, co-hosted by the Health Effects Institute.
- For over 10 years, ACAST and HAQAST have been training scholars in effective, engaged research and applications.
